**Campaign Spending:** [List of Filers](#)

Being born and raised in Kailua and Kaneohe, I am passionate about representing my hometown, the community, and the people who have raised me. As President of Kailua Hawaiian Civic Club, I work closely with environmental and historical organizations towards the preservation of ancient sites, native plant, and wetland habitat restoration at Kawai Nui Marsh. As a Housing Specialist at the Institute for Human Services (IHS), I work placing our disabled homeless in affordable housing and assisting them in finding jobs that empower them towards financial independence. Through my leadership, community involvement and professional experience, I am ready to tackle the big issues facing our communities and State.

It is time we support Hawaii's hard working people by reducing taxes, making the public school system accountable for results, and developing a sustainable Hawaii that relies on renewable energy technology and bio-waste management to reduce landfill space. Join me in working towards a Hawaii with an empowered economy, accountable education system, sustainable environment and increased transparency in government.

I will represent the best interests of our community, as well as the future generations of Hawaii. We deserve a higher level of accountability and a more results-focused government. Let us solve these critical issues now, instead of waiting decades later and paying the price.

I humbly ask for your vote in my race to win District 49 Hawaii State House of Representatives. For more information visit, [www.voteminoo.com](http://www.voteminoo.com).

Mahalo,  
Minoo Ellison
